Oblique abrasive sponge

index	5515, 5506, 5516, 5517, 5514, 5512, 5513, 5505
--------------	--

1. Application

For sanding wooden, metal, and lacquered surfaces in finishing works.

2. Technical Data

- Dimensions [mm]: 125x65(90)x25
- Gradations: 46, 60, 80, 100, 120, 150, 180, 220
- Shape: Trapezoid
- Color: Gray
- Density: 85 kg/m³ (hard)
- Grain: Gray and brown electrocorundum
- Binder: Flexible resins

3. Risk Analysis

- Dust: Produced during sanding may cause respiratory irritation.
- Material damage: Improper use may cause scratches or excessive wear on surfaces.
- Risk of skin abrasion: Direct contact with the abrasive surface may lead to minor injuries.

4. Safety Guidelines

- Use as intended.
- Wear personal protective equipment such as protective gloves and a dust mask.
- Avoid contact with water during use.
- Clean the sponge of material residues after use to extend its lifespan.

5. Storage Conditions

Store in a dry and ventilated place, away from moisture and high temperatures.
