Premium english professional SOLID paint brush

index	
	6565, 6566, 6567, 6568, 6569

1. Application

For manual painting with solvent-based paints and varnishes.

2. Technical Data

Handle: Beech wood, lacquered (acrylic lacquer)

Ferrule: Galvanized metal

Sizes [mm]: 1", 1.5", 2", 2.5", 3"

Thickness [mm]: 15-20

Adhesive: Two-component epoxy

Bristles: A blend of 60% tops natural bristles and mini-hollow fibers

3. Risk Analysis

Sharper edges of the metal ferrule or splinters from the wooden handle may cause minor injuries.

Prolonged use of a poorly designed brush can lead to hand fatigue or wrist pain.

The product has not been classified as hazardous.

4. Safety Guidelines

- Use the tool only for its intended purpose.
- Keep out of reach of children.
- Avoid contact with sharp edges.
- Clean the tool after each use to remove residual materials and ensure durability.

5. Storage Conditions

Store in a cool, dry place, away from direct heat sources.
