

## Product card

Rectangular Building Container

index	
	5434, 5435, 5436

### 1. Application

For construction and finishing works such as mixing mortars, plasters, and other building materials.

### 2. Technical Data

- Material: PP/PE
- Capacity [l]: 40, 60, 80
- Shape: Rectangular

### 3. Risk Analysis

- Mechanical damage: Risk of container rupture in the event of excessive load or impact.
- Material wear: Risk of weakening of the container structure in the event of prolonged contact with aggressive chemicals.
- Inappropriate storage: Risk of deformation

### 4. Safety Guidelines

- Use as intended.
- Do not overload the container beyond its maximum capacity.
- Keep out of reach of children.
- Avoid contact with sharp objects that may damage the structure.
- Store in appropriate conditions to prevent deformation.

### 5. Storage Conditions

Store in a dry and cool place, away from sunlight and moisture.
