Replaceable Blade for Light Smoothing Knife

index	
	6540, 6541, 6542

1. Application

For precise smoothing of putties and plasters on wall and ceiling surfaces.

2. Technical Data

- Blade: Stainless steel, thickness 0.7 mm
- Grip: aluminum profile with increased stiffness
- Lengths: 350mm, 550 mm, 800 mm
- Compatibility: Light handles for smoothing knives

3. Risk Analysis

- Sharp edges: Risk of cuts if used carelessly.
- Breakage risk: Improper use may cause blade damage.
- Improper storage: Moisture can lead to corrosion.

4. Safety Guidelines

- Use as intended
- Use only with compatible handles.
- Keep away from children.
- Clean the blade after use to remove residue.
- Regularly check the blade's condition to ensure safety.

5. Storage Conditions

Store in a dry and well-ventilated place, away from moisture and chemicals.
