Sharp steel trowel

index	5940
-------	------

1. Application

For precise finishing works, such as smoothing and leveling construction surfaces.

2. Technical Data

- Blade: Carbon steel, 1.2 mm thick
- Handle: Beech wood
- Size [mm]: 500

3. Risk Analysis

- Risk of cuts when in contact with sharp blade edges.
- Potential breakage or deformation with improper use.
- Material weakening with prolonged exposure to moisture.
- Risk of the tool slipping during work with wet hands.

4. Safety Guidelines

- Use the tool as intended.
- Keep the handle dry.
- Clean the blade of material residues after use.
- Regularly inspect the blade for damage.
- Avoid storing in damp locations.

5. Storage Conditions

Store in a dry place, away from moisture and direct sunlight.
