Swivel Trowel with Orange Sponge, Compatible with System Handle

index	6405
-------	------

1. Application

For smoothing surfaces and removing excess water from plasters and construction mortars.

2. Technical Data

- Dimensions: 200 x 400 mm
- Working surface: Orange rubber sponge
- Base: 2mm aluminum
- Handle: composite
- Fastening: nut, screw, glue

3. Risk Analysis

- Sponge damage: Risk of wear or tearing with improper use.
- Improper mounting: Risk of handle detachment during work.
- Chemical exposure: Potential degradation of sponge material.

4. Safety Guidelines

- Use as intended.
- Regularly check the condition of the mount and sponge.
- Keep the tool out of reach of children.
- Clean the sponge and base after each use.
- Store in a place protected from exposure to harsh chemicals.

5. Storage Conditions

Store in a dry place, protecting the sponge from direct sunlight.
