

Product card

Tar brush

index	5239
-------	------

1. Application

Intended for applying bituminous and insulating compounds

2. Technical Data

Handle: Beech wood

Size [mm]: 200

Bristles: Coconut fiber

3. Risk Analysis

Splinters from the wooden handle may cause minor injuries.

Prolonged use of a poorly designed brush can lead to hand fatigue or wrist pain.

The product has not been classified as hazardous.

4. Safety Guidelines

- Use the tool only for its intended purpose.
- Keep out of reach of children.
- Avoid contact with sharp edges.
- Clean the tool after each use to remove residual materials and ensure durability.

5. Storage Conditions

Store in a cool, dry place, away from direct heat sources.
