Construction Bucket with Handle and Measuring Scale

index	
	5431, 5432, 5433, 5430

1. Application

For carrying and measuring construction materials and liquids.

2. Technical Data

- Material: PP/PE
- Capacity [l]: 5, 12, 16, 20
- Handle: Metal, galvanized steel
- Graduation: Internal measuring scale

3. Risk Analysis

- Overload: Risk of damage to the bucket if overloaded.
- Handle damage: Risk of breakage of the handle due to improper use.
- Slippage: Risk of dropping the bucket on a slippery surface.
- Contact with aggressive substances: Risk of material degradation.

4. Safety Guidelines

- Use as intended and do not exceed the maximum capacity.
- Lift by the metal handle, not by the edges.
- Avoid contact with corrosive substances and high temperatures.
- Do not overload the product.
- Clean the bucket regularly to prolong its durability.

5. Storage Conditions

Store in a dry and shaded place, away from heat sources.
